SREELAKSHMI B S

sreelekshmibs90@gmail.com 9656131607 Kollam, Kerala SreelakshmiBS Sreelakshmi B S

OBJECTIVE

As a recent graduate, I am seeking an opportunity that encourages continuous learning and professional development while allowing me to contribute effectively through high-quality work in a collaborative and growth-oriented environment.

EDUCATION

- **College of Applied Science Kundara** (Affiliated to University of Kerala)
  2022 - 2025
  Graduation in Computer Science - 70%

- **National Skill Development Institute(W)**
  2025 - 2026
  Artificial Intelligence Micro degree

- **Mahathma Gandhi Higher Secondary School, Uppoodu, East Kallada**
  2020 - 2022
  Higher Secondary Education – 89%

- **KNNMHSS & VHSS, Pavithreswaram, Kollam**
  Secondary School Education – 93%

ACADEMIC PROJECTS

- **INTEGRATED MEDICAL FACILITIES AND NETWORK**
  A comprehensive web application designed to enhance healthcare services by digitally connecting hospitals, clinics, doctors, and patients on a unified platform. The system supports secure data handling, role-based access, and real-time coordination to improve operational efficiency and patient care.

  Technologies Used:

  - Backend: Django (Python)
  - Frontend: HTML, CSS, JavaScript
  - Database: SQLite

- **CONFERENCE MANAGEMENT SYSTEM**
  A web application to streamline conference organization. It includes video/audio conferencing, paper submission and review, user role management (Admin, Reviewer, Editor, User), and real-time collaboration for both virtual and in-person events.

  Technologies Used:

  - Backend: Django (Python)
  - Frontend: HTML, CSS, JavaScript
  - Database: SQLite

PROJECTS

- **EXPENSE TRACKER**
  Developed a web application connecting hospitals, clinics, doctors, and patients on a single digital platform. Built backend using Django (Python) and frontend with HTML, CSS, JavaScript. Implemented role-based access control for secure user and medical data management. Ensured secure handling of sensitive healthcare data following best practices. Enabled real-time coordination to improve operational efficiency and patient care.

  Technologies Used:

  - Backend: Django (Python)
  - Frontend: HTML, CSS, JavaScript
  - Database: PostgreSQL

- **LEARNING MANAGEMENT SYSTEM**
  A Learning Management System (LMS) developed to support online education by providing features such as user authentication, role-based access (Admin, Instructor, Student), course management, content delivery, assessments, and progress monitoring.

  Technologies Used:

  - Backend: Flask (Python)
  - Frontend: HTML, CSS, JavaScript
  - Database: PostgreSQL

TECHNICAL SKILLS

- **Programming Languages** : Python, C
- **Web Frameworks** : Django, Flask
- **Web Technologies** : HTML, CSS, JavaScript
- **Database** : PostgreSQL
- **Data & BI Tools** : Power BI
- **Productivity Tools** : Microsoft Office
- **Core Skill** : Web Development

SKILLS

- Communication Skills
- Adaptability
- Multitasking
- Time Management
- Creativity
- Critical Thinking
- Problem Solving
- Teamwork
